AT RECEPTION

SMART VISITOR MANAGEMENT

At Reception is a state-of-the-art visitor management system that is loved throughout South Africa.
Our intelligent design streamlines your front-desk security protocol! Seamlessly record all your visitors' information upon arrival, while reinforcing your company branding and automating the sign-in process.

FRONT DESK SAFETY AND SECURITY

Our user-friendly tablet interface enables touchless self-service sign-in at your reception desk, while providing real-time tracking of visitor in-times, out-times, and on-site presence. Rest assured, our system is compliant with POPIA and follows international data privacy best practices. Streamline your front desk operations and deliver a seamless visitor experience.

ATR ADD-ONS

Power-up your **At Reception** solution with these additional functions

DASHBOARDS

View live updates on your most important visitor or risk stats. Check customisable all time analytics, or dig deeper into a specific date range for insights on screening results or time and attendance.

INTEGRATIONS

Save time by automatically sending staff, visitor and contractor access and egress information through a customised API.

PRINTER

Print each visitor's badge with unique ID information that help employees recognise their guests.

METAGRATED

Metagrated provides real-time access to various law enforcement databases which in turn provide qualified information on LPR data.

RELAYS

Link your entryway infrastructure to our ATG device with this gate automation device. Once the entry is captured, the relay sends an automated signal to open the boom gate/ turnstile/door.

NFC CARDS

Give your reocurring visitors, contractors or staff NFC cards which has been pre-assigned a set profile for time and attendence purposes and ensures they only have access where permitted.
