ATR WEB

A COMPLETE TOUCHLESS VISITOR MANAGEMENT SOFTWARE

ATR Web introduces a contactless receptionist-assisted check-in, ensuring a secure and welcoming visitor management experience. Utilizing our touchless software, the receptionist initiates registration directly from their existing computer or laptop, minimizing physical contact. Prompt notifications alert the receptionist to any screening questions or incidents, allowing quick action for enhanced security. Tailor greetings and instructions for a personalised touch, creating a warm and professional atmosphere.

- Contactless visitor & employee sign in
- Screening questions with alerts either prior to or on site
- Instantly notify employees of visitor arrivals
- Capture visitor photographs, details & produce custom reports of visitor movements
- Tailor your welcome to suit your industry, your people and your requirements
- Print custom visitor ID badges
- Pre-register visitors for the day they arrive
- View a real-time dashboard
- Flag blocked vehicles or persons for "no entry"

FEATURES

All plans include technical and quick support, upgrades, updates and notifications

ATR WEB ADD-ONS

Power-up your **ATR Web** solution with these additional functions

DASHBOARDS

View live updates on your most important visitor or risk stats. Check customisable all time analytics, or dig deeper into a specific date range for insights on screening results or time and attendance.

INTEGRATIONS

Save time by automatically sending staff, visitor and contractor access and egress information through a customised API.

PRINTER

Print each visitor's badge with unique ID information that help employees recognise their guests.

METAGRATED

Metagrated provides real-time access to various law enforcement databases which in turn provide qualified information on LPR data.
